

Solutions for innovative teaching

TECHNOLOGY IS ALWAYS EVOLVING

In today's rapidly changing world, schools and universities must meet the demand for high-performance technology in the classroom. Videoworks designs and installs Audio-Video solutions that are easy to use and remotely accessible, in order to complete planned maintenance and allow teachers to focus only on teaching.

- > “Easy to use” audio video systems
- > Video projection
- > Interactive whiteboards
- > Distance learning
- > Recording & streaming

“EASY TO USE” AUDIO VIDEO SYSTEMS

- > Audio video connectivity always available on the table with neat cabling
- > Possibility of wireless presentations with moderator function
- > User interface options include an intuitive touchscreen panel or foolproof pushbutton panel for the presenter
- > Supervision via Lan network by helpdesk services

Chairs or podiums with integrated audio-video
