

MY INFO

3.0

The system that integrates  
all multimedia experiences  
on-board

# MyInfo 3.0

*The system that integrates all multimedia experiences on-board*

Simple and intuitive - inspired by the interfaces of the most popular streaming networks - MyInfo 3.0 integrates control of all the infotainment, automation and CCTV on-board.

MyInfo 3.0 is an open system able to integrate the most popular digital and streaming services and it also offers a fully customizable access for each device.

- VIDEO
- MUSIC
- COMFORT
- CCTV & NAVIGATION

## *Less devices*

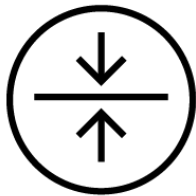

The app is already integrated in your TV/Tablet.

All that's needed to enjoy your entertainment is a Smart TV, remote control, speakers and Wi-Fi coverage.

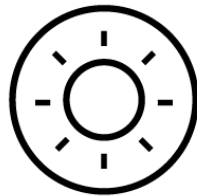

Use either the remote control or the tablet to access your entertainment on the Smart TV, or watch directly on the tablet.

**Wiring reduction**

**Space saving**

**Heat reduction**

**Energy saving**

- Less wiring usage
- Less technical space
- Less heat emission
- Less energy consumed

# MyInfo 3.0

*Easily accessible via Smart TV + remote control and tablet*

Using the six navigation buttons on the smart TV's remote control, all "Experiences" can be selected simply and intuitively: from video and audio streaming to web radio, from satellite content to home automation. The aim is to simplify the access the on-board services and to respond more effectively to the needs of the user in order to guarantee an easier and intuitive control.
